Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I am a low volume user of my tracfone service and could never afford to have wireless at all were tracfone service unavailable! If you raise the rates, then you are effectively cutting off vital communication between my kids, my family and I since I am in a lower income situation at this time! Whether or not you care, I may never know. But please think about your own family and how you would feel if you relied on such a service!

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
